Middle Ground Lease
Prepared by eTrac Inc.
January 22, 2014

Date of Survey: 12/13/12

Soundings in Feet
Conditional Survey

Notes: Surveyed by eTrac Inc. Lambert conformal conic projection from WGS-84 to NAD 1983 State Plane California Zone III coordinate system. Vertical control was derived from one of the following based on its proximity to the survey site. Within the delta: NOAA-provided information from Port Chicago and Mare Island tide gauges. Within the bay: NOAA-provided information from the Presidio tide gauge. This bathymetric information is only valid for the time which the survey was conducted. Horizontal positioning was acquired through an Applanix POSMV 320 version 4 using coast guard DGPS corrections.
