August 20, 2020

Outline

- Enforcement Program Goals
- Case Resolution progress
- Next Steps

Enforcement Program Goals

- **Deterrence:** Remove incentive to violate BCDC laws, policies and regulations.
- **Transparency:** Clearly communicate expectations and ensure that processes are known and understood.
- **Consistency:** Maintain a clear, documented enforcement process that is publicly transparent and consistently applied.
- **Fairness:** Treat violations similar in nature and impact to the Bay and public access similarly (will not necessarily equate to the same outcome) and remove any competitive advantage gained from noncompliance.
