**SUBJECT: Revised Listing of Administrative Matters**  
For Commission consideration on November 20, 2025

## Purpose of This Report

The purpose of this report is to inform the Commission about new administrative matters.

- The Commission’s rules allow the Executive Director to take action on various administrative matters on behalf of the Commission. This report is provided for Commissioners and the public to learn about actions the Executive Director proposes to take or has recently taken.
- This report also details new planning and permitting matters taken by local governments in the secondary management area of the Suisun Marsh.

## Pending Administrative Permit Applications

### What is Being Reported Here:

The Executive Director acts on [administrative permit](#) applications. Pending administrative applications are reported here to inform Commissioners and the public and to answer any questions or concerns about the Executive Director’s determination that a project is “minor” in scope.

The Commission has two options regarding how to proceed:

- If the Commission takes no action, the Executive Director will act on these pending applications within the deadlines established by state law; or,
- If a Commissioner objects to the classification of the project as “minor,” and a majority of Commissioners agree, a hearing will be scheduled to decide on the proper classification of the project.
