I am a resident of San Mateo Village where a major waterway to the bay runs through our neighborhood bot above ground and underground. The overgrowth can be seen from W 40th Ave. Please see attached photos.

Please see what you can do to address this before our super El Niño rains begin. This neighborhood has had flooding in past 97-98 El Niño and with the “Pineapple Express” rains of a couple of years ago.

If yo are not the ones to address this let me know who is.

Thank you.

Sincerely,
Dolores Sleeper
